PERSONAL INJURY/BODILY INJURY

Injury claims range from basic damage to a person’s or organization’s property to catastrophic injuries resulting in significant permanent debilitating conditions. These claims involve a number of factors relating to liability for the damages claimed, as well as numerous defenses a person or business may have. A thorough investigation of the facts and the assertions that may come in the form of a variety of different experts is imperative to address such actions.

McConnaughay Coonrod has a long history of defending individuals and businesses from claims of injury in a variety of different forms, from automobile liability to premises liability to claims of negligence by professionals.
